Around the World Chapter 3 Study Guide: Boundaries and Bridges

1. boundary where one area ends and another begins
2. City a place where enough people live close enough to each other that they have a government of some kind
3. The difference between a road and a highway is a highway is wider and busier than a road.
4. Two ways railroads are used today are travel from place to place and to transport products
5. Tunnels are useful because they allow ~~to~~ trains and vehicles to pass through mountains
6. canal man-made bodies of water created to help boats and ships get from one place to another.
7. Irrigation systems are used to water crops

• dam: a wall built across a river or stream

• irrigation: the watering of land to use it for agriculture

• Chickamauga Dam: the closest dam to where we live

• Dams are useful in 3 ways:

- help boats and ships get from place to place

- control flooding

- generate electricity
